

BREWER'S SPECIAL

# Viking Chocolate Light Malt

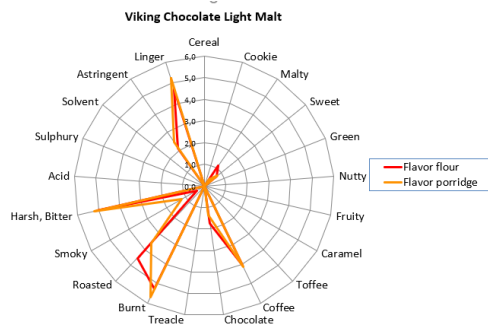

## MALT CHARACTER

Chocolate Light Malt is produced by roasting from pilsner malt. The amylolytic activity of Chocolate Malt is zero. The amount of fermentable extract is rather low.

## FLAVOR CONTRIBUTION

"Chocolate" refers primarily to the malt's color. This malt will lend various levels of aroma, a deep color, and a roasted taste, depending on the amount used. Aromas and tastes of coffee, roasted and burnt are strong and nuances of chocolate can also be found. This malt gives strong but well balanced overall taste.

## APPLICATIONS

Chocolate Malt is mainly included in for Porters and Stouts, but it can also be used for any other dark colored beers like Dark Ales due to its strong coloring value. Chocolate Malt contributes roasted flavors and aromas with hints of dark chocolate and coffee into any beer. Already with rather low dosage portions a remarkable increase in color can be found together with changes in flavor and aroma. Typical dosage rate of Chocolate Malt is normally under 5–10%.
